

CHINOOK ADVANCE

VOL. VI, NO. 12

CHINOOK, ALBERTA, JULY 12, 1919

Subscription: \$1.00 per year, in advance. Single Copy, 5 cents

A PUBLIC MEETING

(under the Auspices of the U.F.A.)

will be held on

Tuesday Eve'g, July 15

at 8 o'clock

in

Chinook Consolidated School

WM. IRVINE

(of Calgary) will address the meeting on

"POLITICAL ACTION BY FARMERS,"

How Shall We Take It?

AND

will discuss the Independent Political Movement
in Alberta

The opportunity for questions will be given

Ladies are Specially Invited

The subject is of importance to all—Come and bring
your friends

Breezelets

Hindenburg is another German guy who is willing to make himself a martyr in place of the emperor before the Allied tribunal.

But Hindy needn't worry, he'll get there himself on his own account.

Ex-Emperor William is to be tried before the Allied tribunal in London, England.

Last time William was in London—just before the war—he was wined and dined as a true friend of Britain—but was at the same time planning the overthrow of the British Empire.

"Disposal of this year's crop is complicated," says an Ottawa dispatch.

Old Sol and Jupiter Pluvius have complicated the crop situation—and ruined the majority of the farmers West.

"Production cost must be lowered," says committee on high cost of living.

Get down to brass tacks with the profiteers, and the H.C.L. will be quickly lowered.

The German Crown Prince is the latest to offer to take his father's responsibility for the war.

But no substitute will be allowed by the Allied tribunal to take the ex-Kaiser's medicine of his just dues.

THE CHINOOK G.W.V.A. AT OYEN

The Chinook local G.W.V.A. had intended to have a banquet on Peace Night, the 19th instant, but the committee in charge decided that, in view of the fact that the Oyen local was having a celebration on that day, the banquet be indefinitely postponed. The committee has further decided that motor cars will be supplied free to veterans and their wives wishing to attend the Oyen celebration. The cars will leave Chinook at 10 o'clock the morning of the 19th, arriving at Oyen in time for lunch. All veterans should notify Mr. L. E. Ormond, of Chinook (the secretary) as to whether or not they will be able to attend.

WITHDRAWAL OF INSURED CROP DESTROYED FROM ANY CAUSE OTHER THAN HAIL

Provision is made in the Act whereby the person insured, by sending registered notice on the form provided, to the Hall Insurance Board, Box 140, Calgary, may, on any date between June 15th and July 20th, withdraw any of the crop insured that has been destroyed from any cause other than hail.

A proportionate amount of the premium will be charged against the land to pay the insurance from June 15th to the date of withdrawal.

The necessary forms may be obtained from the Secretary-treasurer of the Municipal District.

DIVINE SERVICE AT CARPATHIA-CROCUS DISTRICT

Divine service was again conducted at the home of Mr. Nell McLean on Sunday, July 6th, at 3 p.m. Mr. Elliot read Psalm 27, and from St. Luke's Gospel, 5th chapter, taking his text from the 5th verse, "Master, we have toiled all the night and taken nothing; nevertheless, at thy word, I will let down the net."

The minister drew a good word picture of these fishermen, disciples, who as seasoned and experienced fishermen, watched the waves on the Lake of Genesaret and knew just the right time and place to fish on this night; all signs had been favorable, yet "they had toiled all night and caught nothing." Then they had pulled in to the shore in the morning with empty boats and Our Lord, entering Simon's boat, told him to pull out from the land. "Launch out into the deep, and let out the nets." To the experienced fishermen this seemed to be neither the time nor reasonable, but with the greatest faith—the loving impulsive Peter replied, "At thy word I will let down the net" and the miraculous draught of fishes was the result.

After all, how many of us there are who set out with bright hopes, doing our work in the best way we can, and putting all our earnestness, zeal and industry into it only to feel that we too "have toiled and caught nothing." In these trying times of sickness, war, and social unrest and crop failures, how apt we are to get discouraged, and feel that our work is a failure, forgetting that as Browning has it—

"God's in his heaven,
All's right with the world."

We need the faith of Peter to launch out into the deep, and let down the net, trusting all to the all-wise Father for what seems a failure in our work may be working in us for success, moulding and refining as "gold is tried by fire."

A short sermon was preached by Mr. Elliot to the children. He told them of the many instances in the Bible in which children had played an important part. Samuel, who was dedicated to God's service from a child, and how "Samuel ministered before the Lord, being a child" of the little captive Hebrew maid in the house of Naaman the leper, and of the lad who had the five barley loaves and two small fishes that fed the multitude on the shores of the Sea of Galilee. The sermon was much appreciated. There was a fairly large attendance.

Canadian Northern surveyors are again at work south of town, and have staked a survey which crosses the main south road between 15 and 16 miles from town, according to reports of residents in the vicinity.

The surveyors, it is said, have stated that the route is an alternative one to that surveyed a short time ago further south, it being desired to see which route offers the easiest grade.

Announcement is also made that work has already been started by the C.P.R. on the line from Drumheller to Acme, the contract being let to Foley, Welsh & Stewart, who have sublet the contract to Burns, Jordan & Welsh. Mr. Jordan is already on the ground, organizing and preparing to start work. The headquarters of the construction parties have been made at Granger, a few miles east of Acme.

Information received by The Plaindealer is to the effect that east of Drumheller the line will proceed as far as the Bullpound creek, where it will divide, the C.P.R. building a line along the southerly route, which was surveyed earlier in the spring, and which will connect up with the Acadia Valley line and run into Empress, while the C.N.R. will build along the northerly route which is now being surveyed and connect up with their system across the Saskatchewan border.

IMPROVEMENTS IN TAX RECOVERY ACT Simpler Methods of Procedure in Lands That Are Sold for Taxes

The various municipal acts in force in the province provide for forfeiture proceedings being taken against land on which taxes are in arrears. By these proceedings the title to the land is forfeited to the municipality, subject to redemption within a year, and if the land is not redeemed, then it may be sold by the municipality. This method of tax enforcement has proved to be both expensive and tedious, as it requires the making out of a tax enforcement return; abstracts of title are required to be secured from the Land Titles office for all lands on the said tax enforcement return; notices have to be sent by registered mail at least sixty days prior to date of the court at which the tax enforcement return is to be confirmed to all parties having any interest in the land and notice of court has to be advertised in the local newspaper and in the Alberta Gazette. After the tax enforcement return has been confirmed additional abstracts have to be obtained, two more sets of notices have to be issued and advertisements again inserted in local newspapers and Alberta Gazette, giving date of final forfeiture. If the land is finally sold, it is at least fourteen months from the date of commencement of forfeiture proceedings before the municipality realizes all its taxes, and if, as frequently happens in urban municipalities, the land cannot be sold at all, the municipality does not receive its taxes and in addition is out a large amount spent in obtaining abstracts, printing and mailing special notice, advertising date of court, advertising date of final forfeiture and so on.

Because these proceedings were so expensive, burdensome and unsatisfactory, the Hon. A. G. MacKay, Minister of Municipal Affairs, at the last session of the legislature, introduced legislation under the name of the Tax Recovery Act, which will greatly simplify and reduce the expense of the tax enforcement proceedings in future.

Under the Tax Recovery Act, lands on which taxes in arrears on the first day of July of the year following that in which they are levied, are liable to be sold for taxes and the treasurer, assessor or collector, as the case may be, of each city, town, village or municipal district shall, on or before the fourteenth day of August in each year, submit to the mayor or reeve of the municipality, a list of all lands that are liable to be sold for taxes. The list is correct, gives the proper mayor or reeve, on satisfying himself per official a warrant authorizing him to advertise for sale all the lands included in such list. Such sale is required to be advertised once a week for two consecutive weeks in a newspaper or newspapers published in the municipality, or if there is no newspaper published therein, in a newspaper circulating in the municipality. Such advertisement must be published not less than six weeks before the date of sale and is required to contain a list of the lands to be sold. In addition to the publication of the list as above mentioned, there shall be published once during each week after the period of two weeks above mentioned, but prior to date of sale, a notice of such sale and a statement as to where the list of lands may be seen. Notice of the sale is also required to be published in two issues of the Alberta Gazette, the last issue to appear not less than two weeks before the date of sale. No lands, the title to which is vested in the crown, can be included in such sale.

Lands so offered for sale shall be sold to the highest bidder, and if they cannot be sold for the full amount of the arrears of taxes and costs, they

may be sold for a lesser sum, subject, however, to a minimum value that may be placed upon them by the council of the municipality. This minimum value shall not be advertised, but shall be treated by the treasurer as the upset selling price. Any lands which are not sold at such a sale shall be included in the list of lands offered for sale the following year. The purchaser at the tax sale will only be required to pay at date of sale the amount due the municipality for arrears of taxes and costs, even if the land is sold for more than the arrears of taxes and costs.

As soon as the sale is completed, a return showing the lands sold will be sent to the registrar of the land titles office for the registration district in which he land is situated, who shall register against such land, a memorandum of sale, so that any prospective purchaser or money lender may be protected.

All lands sold at a tax sale are subject to redemption within a period of one year from the date of sale. Where lands sold are not redeemed by the end of the year all parties shown by the record of the land titles office to be interested in any way in the land, will forthwith be notified of that fact by registered mail, and after a period of sixty days has elapsed from the expiration of the redemption period, a return of the unredeemed lands will be submitted to a judge of the district court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such transfer as he deems advisable and in accordance with this order the treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding, and such transfer shall entitle the purchaser to an indefeasible title, except as to claims of the municipality or the crown. Any monies paid to the municipality over and above the taxes due, shall be paid to the persons declared by an order of a judge of the district court to be entitled thereto.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to tax enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act, it is only necessary for the municipality to obtain abstracts of titles and to send notice by registered mail, in connection with the land which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our municipal acts, it is necessary to obtain abstracts of title of all lands in which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of abstracts to be secured and two more notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the municipality in many cases is unable to collect any taxes whatever.

The Tax Recovery Act provides for the immediate sale of land for taxes, without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all, this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision whereby municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at land which will not be more than an expense of what it was under the forfeiture proceedings set forth in different municipal acts, and if the land is worth the taxes the municipality gets results quickly, while if the land will not sell, the municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the tax enforcement proceedings provided for in the municipal acts will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

The Store with the Goods

The Coming Of Peace

The 28th day of June will stand for all time as one of the most memorable dates in the calendar, and as one of the most important anniversaries for future generations to celebrate, for it was on this date in the year of grace, 1919, that the Treaty of Versailles was signed, thus officially ending the Great War which began in 1914.

By a strange coincidence, it was on June 28, 1914, that the Archduke Franz Ferdinand, heir to the throne of Austria-Hungary, was murdered at Sarajevo. It was this tragedy, that was assigned as the reason for Austria declaring war on Serbia, and thereby precipitating the terrible conflict which shook the world to its very foundations. The signing of the peace treaty on June 28, five years later, was not by pre-arrangement, the date having been postponed from time to time in order to complete negotiations, and finally to enable Germany to secure the consent of some of her leading men to assume the responsibility of affixing their signatures to the document.

It is not necessary at this time to recall the detailed terms of the peace treaty which Germany, after many declarations that she would never sign, finally bowed to the inevitable, and signed unconditionally. Suffice it to say, that it is probably the most humiliating admission of defeat, and the acceptance of the most abject terms of punishment that any great nation in all the world's history ever signed. Yet Germany had to sign. The only alternatives were anarchy at home, and the ultimate occupation of the whole country by the armies of the allies.

It is a stern peace, but a just peace, it had to be stern in order to be just. Even so, it is undoubtedly a more merciful peace for Germany than Prussian militarism would have enforced on the allies, had Germany proved victorious in the war. This fact is proven by the statements of leading German statesmen and semi-official newspapers made in the days when victory for Germany appeared to be not at all improbable.

The great work of world reconstruction has now to be undertaken. It will call for the patience, wisdom and energy of the statesmen and people of all nations in order that it may be successfully accomplished. The problems confronting the world on its return to peace are quite as great as the problems which arose in the prosecution of the war; in fact, the peace problems are more complex and will be found even more difficult of solution. They cannot be solved in a year, or in several years, but for long years, even generations to come, the nations will find it necessary to deal with acute questions which had their origin in the Great War.

The allies will for a long time to come have to remain prepared, and

watchful of Germany. Germany, although defeated and accepting the terms imposed upon her, is far from repentant. There has been no regeneration in Germany. At heart the people are still arrogant and defiant, but for the time being impotent and helpless. The spirit of Germany has not changed, and although it may now style itself a republic and not an empire, there is lacking any real evidence of the sincere acceptance of democratic institutions.

Throughout the war Germany proved to be a treacherous and barbarous foe. She treated her solemn treaty obligations as "scraps of paper." On the eve of the signing of the peace treaty she gave further evidence of the fact that she has not reformed in this respect. The sinking of the surrendered German fleet at Scapa Flow was a characteristic piece of German treachery and a violation of the laws of war. By the terms of the armistice Germany was required to surrender her fleet. She accepted those terms. The fleet was interned at Scapa Flow. Then on the eve of the signing of peace the Germans scuttled the ships, destroying property which did not belong to them.

By this act the German navy had become the crowning infamy to its history. Its record all through has been one of villainy. It skulked in its harbors and made war by submarine assassination; it surrendered without a fight; and after the surrender it treacherously destroyed the surrendered property. This act, without a parallel in the history of the world, imposes on the allies the necessity of keeping a close eye on Germany in the years to come to ensure that she lives up to the terms of the peace treaty she has now signed.

Like a Grip at the Throat.—For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted, and finally, through the attack passes, is left in increasing dread of the return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful curative agent. It immediately relieves the restricted air passages thousands can testify. It is sold by dealers everywhere.

Wind And Thermometer

You Cannot Make Mercury Contract By Fanning Thermometer

There is a good deal of sense in this answer in a contemporary who answers the question, "Does the wind affect the thermometer?"

"No. Wind is simply the air in motion, and the motion of the air does not change its temperature. Wind, coming in contact with the human body, produces a sensation of coldness, not because it is colder than the air at rest, but because its rapid change of contact with the body causes a sensation of coldness by evaporation. This sensation may be caused by rapid contact of warm air with the body as well as by the rapid contact of cold air. The use of a fan in warm weather brings relief not by cooling the air, but by setting it in motion and bringing rapidly changing masses of it in contact with the human body. But it would not have that effect on an inaccurate and sensitive thermometer. You cannot make mercury contract by fanning the thermometer."

Saskatchewan Beef for Italy
Regina, Sask.—Gordon, Tonnies & Fares have shipped 17 cars of Saskatchewan beef, valued at \$170,000, direct to Italy. Ten cars from Regina, three from Moose Jaw and four from Saskatoon.

Twenty-three thousand screws are used in the making of an ordinary airplane, and seven hundred pieces of wood in a single wing.

Some women are not as bad as they are pointed.

Why isn't prohibition a beer check?

Many Eskimos Died From Starvation

Caribou Failed and Fish Were Difficult to Get

Prince Albert.—Famine stalked last winter among the Eskimos of Chesterfield Inlet, Hudson Bay, according to word just received from Father Turquetil, O.M.I., and the mission at Chesterfield is much worried for lack of news of many of the Eskimos who formerly visited the station. The caribou have failed and there is no fish, writes Father Turquetil in a letter to friends in Prince Albert. Father Turquetil is the French priest who, about eight years ago, sent the report that the remains of Andre's balloon had been found and set the world agog with the news. He is at present at Chesterfield Inlet with Father Pigeon studying the Eskimo language, and carrying on the work of his mission. The first inkling that hunger and want were approaching came last November when a famished Eskimo, trying to reach the mission, fell in a faint on the ice of the lake near. It was not until the following day that he became conscious, when he gave word of his old squaw, whom the missionaries finally discovered under the remains of an old tent torn by the wind. She was stoically waiting death.

Many Eskimos died, for the Eskimo had put by no great stock of food. When the caribou failed and they tried for fish, they were difficult to get. In February it was a day's work to chop a hole through the ice, and even then the fishing could only be found in the deep places. When a snowfall came no one could venture out, and death stared them in the face. Last year forty or sixty Eskimos perished in this way. A short time ago the missionaries heard of one family where five children died of hunger.

Cold Storage

It is a very vexed question, but there are many Canadians paying high prices who do not understand why "forty million dollars worth of frozen beef is in cold storage in Canada."—Kingston Standard.

Minard's Liniment Co., Limited.

Gents.—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good.

Yours etc.

WILFRID GAGNE.

Prop. of Grand Central Hotel.

Drummondville, Aug. 3, '04.

Swiftest Dog in the World

The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs that show 75 feet in a second, while the gazelle has shown measured speed of more than eighty feet a second, which would give it a speed of 4,800 feet in a minute if the pace could be kept up.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of Minard's Corn Lifter." This will lift out corns in five minutes.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, drops up and can be lifted out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while frezzone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.

Plans Trains Of Air Cars

The First Step Toward the Creation of an Aerial Train

The keenest interest has been aroused in various circles in London by a report from the Hague that Herr Fokker, the Dutch inventor, of the German bathhouse, and proprietor of the works that manufactured it, proposes having himself seated in one airplane and towed by another plane. This is the first step toward the creation of an aerial train, the idea being an aerial locomotive with a chain of cars, similar to a modern railway train.

Herr Fokker has a specially constructed monoplane without motor ready for the experiment, but has great difficulty in getting an airman to lead the airplane. A flying train of air cars, some for baggage and some for passengers, is said to be the dream of this Dutch inventor.

TIERED PEOPLE ARE DEBILITATED

Full Health and Strength Can Only Be Regained By Enriching the Blood

People who are tired all the time and never feel rested, even after a long night in bed, people who cannot do their work, and who feel that they have no joy in living, are in a "condition described by doctors as 'general debility.' A medical examination might show that every organ in the body is acting normally, but the pallor of the face will usually show that the blood is weak and watery. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body, but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the whole system. The first sign of returning health is a better appetite, an improved digestion, a quicker step and better color in the cheeks. The rich red blood, reaching every organ and muscle, carries new health and vigor. The nerves are quieted, sleep becomes more refreshing, and with persistent treatment and a good diet the patient is once more enabled to enjoy life. The case of Mrs. W. Dostater, R. F. No. 4, Tilsonburg, Ont., illustrates the great value of Dr. Williams' Pink Pills in cases of this kind. Mr. Dostater says: "I was troubled with pains throughout my whole body, was extremely nervous, did not sleep at night, and was further afflicted with rheumatism. In spite of different treatments this condition persisted, and I was growing weaker and weaker, and was unable to do any work. Then I began taking Dr. Williams' Pink Pills, and after a few weeks there was a noticeable improvement in my condition. I continued taking the pills, constantly gaining until I felt as well as ever I did. While taking the pills my weight increased to 170 pounds, and I can now do as good a day's work as anyone. My advice if you are not feeling well is to take Dr. Williams' Pink Pills and they will soon put you right."

At the first that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement in the appetite, the health and spirits. You can get these pills through any medicine dealer, or by mail at 50 cents a box, or boxes of six from Dr. Williams' Medicine Co., Brockville, Ont.

Talk Of Teuton Exodus

5,000,000 Will Leave Germany to Escape War Burdens

New York.—Karl H. von Wiegand, the Berlin correspondent of the Sun, cables in part: "Convinced that peace will limit industry, create unemployment, and lessen the chances of the ambitious to achieve a career or attain independence in life, preliminary preparations are being made for emigration by hundreds of thousands of Germans."

The movement is taking active shape through organizations which are being formed and sustained. Plans are being worked out in a characteristic methodical way. The government, realizing the crippled industries, limited raw materials, the absence of an army and navy and of a mercantile marine, will leave perhaps several millions of men upon its hands for whom it will be difficult, if not impossible, to provide a means of livelihood, is more or less openly encouraging the idea of a wholesale exodus. It has added a new department to the Ministry of the Interior called the National Emigration Office, which has been placed in charge of Privy Councillor Junck. It was established to give information and all possible assistance and advice German emigrants, but especially to keep track of the streams of Germans who are expected to leave Germany.

The number of persons who will leave or will be "shoved off" with the assistance of the government is estimated conservatively at 5,000,000.

The main streams of German emigration will be directed toward South America; that much already is evident. Intended emigrants are warned strongly against the United States in the general belief that Germans are not wanted there. Reports have been published here that the American labor unions are creating a general anti-foreign feeling in that country. An Argentine immigration bureau has been established in Berlin. Among other inducements, the Argentine government pays part of the immigrant's expenses, including railway fare to destination after arrival at Buenos Ayres, and ten days' food and lodging.

South America is a second favorite, followed by Mexico and Chile. The first 500 Germans are scheduled to arrive in Mexico in September. A propaganda for Paraguay has also been commenced.

Minard's Liniment Cures Diphtheria.

At twenty-one a man knows everything; at fifty he wishes he knew something.

There is nothing on earth that can so badly stick on itself as a sheet of postage stamps.

How To Get The News

Editors Are Only Human, Or At Least Almost Human

Day before yesterday a perfectly nice lady called up and with tears in her voice reported us for not mentioning the fact that she had a friend visiting her last week. We told her that she had not let us know that she had a visitor. Then she said, "Well, you should have known. I thought you were running a newspaper." Wouldn't that rattle your slats? Some people think that the editor ought to be a cross between Argus and Anna Eva Fay. They seem to think that our five senses are augmented by a sixth that lets us know everything that happens, even if he sees, hear, feel, taste or smell it not. Dear lady, editors are only human, or at least almost human. If you have a friend visiting you, if you are going away, or have returned from a visit out of town, if Johnny falls and breaks his arm, if your husband chops his toe instead of a stick of wood, if anything happens to make you glad, or sad, happy or mad, call us up. Tell us about it. That's the way to get it in the paper.—From the Simcoe Reformer.

"Black Watch"—The Best Black Pig Chewing Tobacco on the Market

Chinese Firecrackers

Canton District Is the Centre of This Kind of Work

China invented gunpowder and popularized firecrackers. The cheapest kind of firecrackers is made of gunpowder rolled up in coarse bamboo paper with a covering of red paper, red being regarded by the Chinese as bringing good luck. Alum is used to neutralise the smoke. The Canton district is the centre of this industry. The Chinese seem to use firecrackers upon every occasion—to send a party guest, in wedding celebrations, or festivals and birthdays, and to dispel evil and bring good omens. China exports about \$600,000 worth a year.

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

Hamburg Reopens

London.—Hamburg, which has been in the hands of Spartacists and Communists for a week, has been occupied by the government troops under Gen. Von Lettow Vorbeck. The Exchange Telegraph company dispatch from Copenhagen reporting the occupation says there was no fighting.

"Cheer up, old man, there's other fish in the sea." Rejected Suitor: "Yes, but the last one took all my bait"—Life.

CUTICURA HEALS PIMPLES

In terrible rash on face which made skin sore and inflamed. Irritated face by scratching and was disfigured. Could not sleep well and made feel unpleasant. Trouble lasted 3 months before used Cuticura and after using 2 cakes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Neibel, R. R. 3, Brussels, Ont.

Cuticura Soap, Ointment and Talcum powder, and maintain skin purity, skin comfort and skin health often when all else fails.

For free sample each of Cuticura Soap, Ointment, and Talcum powder, write to: Cuticura, Dept. A, Boston, U. S. A. Send everywhere.

Price Limit For Wives

Marriage agencies in Japan are now limited to twenty-five pence per cent on each match made. One peso for an introduction, five for a hunt for a life partner, and twenty-five more for actually binding two together are the legal prices. This arrangement cuts out all the sorbets, carriages, flowers, jewelry and other expenses of this country, and after all is more economical.

Worms in children work havoc. These pests attack the tender lining of the intestines and if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Camouflaged Krupps

London.—The Krupp works at Munich have been sold to Americans, according to dispatches from Munich quoting newspapers there. It is added several industrial concerns in the Bavarian capital have also passed into U.S. hands.

An Odd Person

"How modestly she dresses, and sensibly." "Yes; that woman will do anything to attract attention."

DO NOT SUFFER FROM PILES

Do not suffer another day with itching, bleeding, or protruding piles. Use the surgical ointment.

Dr. Chase's Ointment will relieve you at once and as certainly cure you. Get a box at dealer, or Edmonstone, Bates & Co., Limited, and enclose 2c. stamp to pay postage.

BEECHAM'S PILLS

When your head aches, it is usually caused by your liver or stomach getting out of order. These "sick headaches" quickly disappear as soon as the stomach is relieved of its bilious contents. Right your stomach and regulate and tone the liver with Beecham's Pills, which rapidly improve conditions and promptly

Make your morning cereal dish a strengthener.

Grape-Nuts

is not only most delicious in taste, but is a builder of tissue.

"There's a Reason"

Kaiser Will Have Trial In London

London. — William Hohenzollern, the former German emperor, will be brought to England in a British ship and imprisoned in the Tower of London, according to the Daily Mail.

The death penalty will not be sought, the newspaper points out, but if he is found guilty, the allies will ask his banishment for life to a remote island, following the precedent of Napoleon's exile on St. Helena.

The international trial court had intended to try the former emperor alone, the Daily Mail says, but it is possible that the former crown prince Frederick will also be arraigned before it.

The note to Holland requesting the extradition of the former German emperor, it is understood, will be signed by twenty-two or twenty-three of the powers.

The former German emperor's guards at Amersfoort have been increased, according to the Daily Mail correspondent, and his staff has been reduced. Lieut.-Gen. Von Estorff has left for Berlin. Well-informed circles at The Hague, this correspondent says, do not believe that Holland will give the ex-emperor up to the allies. They are of the opinion that he will remain in Holland for the rest of his life.

Paris.—The officers' corps of the Prussian army and German navy, according to a Berne dispatch to the Havas Agency, have sent a lengthy appeal to the Queen of Holland not to permit the extradition of the former German emperor.

Winnipeg Strike Solved Nothing

Winnipeg.—The Western Labor News says: "After nearly nine weeks of strike and strife, the metal shop workers went back to work. That is, the strike is off, though some men are not re-employed and some others refuse to go back on the conditions offered."

"The big three employers are still opposed to collective bargaining, as understood by trades unions. They refuse to deal with the business agents of the unions. Some of the smaller firms do recognize the unions in the true sense."

Saskatoon.—At the Empire theatre in Saskatoon and the Regina theatre, Regina, for the fair weeks there will be offered three times each day one of the famous Pantages vaudeville shows. These will comprise some 20 or 30 of the premiere vaudeville artists of the day, offering, in conjunction with movies, a two-hour show that should be a welcome added attraction to the already strong fair attractions.

Getting Rid of a Few Charleston, S.C.—A trainload of Germans, formerly interned at Fort Oglethorpe, embarked on the transport Princess Matoka for Rotterdam to be repatriated.

Postal Workers Have Failed To Attain Object

Ottawa.—The government has decided that it cannot recede from the policy it has so far pursued in the matter of locked-out postal workers in Winnipeg. A delegation of members of the Amalgamated Postal Workers took a train back to the West, having failed in an attempt to persuade the government to reconsider its policy of making permanent appointments of postal employees who acted as strike breakers when the regular postal employees came out in a sympathetic strike on May 15.

The delegation was composed of C. Silveritz, president of the Amalgamated Postal Workers, Victoria; L. Pickup, Winnipeg; J. V. Johnston, Winnipeg, and A. Venables, Calgary.

"We came at the request of the strikers," said Mr. Silveritz, "with a view to securing a modification of the position the government has taken on this question. We could not ask for less than reinstatement for the employees locked out."

"In an interview with Sir Robert Borden, the premier said the question resolved itself into three points:

"1. Reinstatement as requested."
"2. To modify its attitude and re-instate some of the men; or."
"3. Adhere rigidly to the terms of the ultimatum issued by Hon. Mr. Meighen."

"We went before the cabinet for its reply, and it does not see its way clear to recede from the position it has already taken. We have failed in our object."

Food Riots In Italy

Protests at Price of Food of Serious Nature

Forli, Italy.—After a great meeting here, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices. Soon the fury of the mob made no distinction and had no limits. All the principal shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor.

On the walls of the chamber they wrote: "These goods are at the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property. The food riots here, however, differ fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Forli most of the goods taken from the shops were transferred to the care of the municipality or the chamber of labor to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at 8,000,000 lire. The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of socialists and republicans, and they ordered that the shops be reopened and the goods sold at half price under the supervision of representatives of the demonstrating masses.

Despite this apparent return to order in the riotous moment, the losses are enormous owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

Peace River Coal

Leases Cancelled

Smoky River Leases Were Subject of Investigation By Senate Committee

Ottawa.—As a result of the investigation by the select committee of the senate appointed several days ago to enquire into the question of certain valuable coal leases in the Smoky River district of the Alberta Peace River, some 200 miles north of Edmonton, leases have been cancelled by order of Hon. Arthur Meighen, minister of the interior. As a consequence the application for the right to build a railway to be known as the Athabasca, Grande Prairie and Vermilion railway will go no further than its present stage.

Officials of the geological survey branch have testified before the senate committee that the coal area in question is probably the richest in Canada, and that it developed and connected with the main lines to the south it would be able to supply the whole of the west with a coal almost equal in quality to the Pennsylvania anthracite.

Hoover Resigns As Food Controller

Will Remain as Director of Newly Organized Grain Corporation

New York.—The resignation of Herbert Hoover as chairman of the board of directors of the food administration grain corporation and reorganization of the corporation under the name "United States Grain Corporation" was announced at the annual meeting of stockholders here.

Hoover's place as chairman will be filled by Julius Barnes, wheat director, who also is president of the corporation. It was said Mr. Hoover would continue as a director, but his resignation of the chairmanship marked the first step toward his retirement from public life.

Builders Are Back

Winnipeg.—Members of thirteen building trades unions, who have been on strike for the past nine weeks, have returned to work.

With the reopening of work contractors began to rush plans for construction that was in prospect this spring, and whose abandonment had not been forced by the shortness of the remaining building season.

Lord Raleigh Dead

London.—Baron Raleigh (John William Strutt) has passed away. He was known as the "peer shepherd," having established a chain of milk shops in London which were supplied from his own farm. He was born in 1842.

Cry tomorrow, if you must, but laugh today.

W. N. U. 1271

Reign Of Terror In Russia

Women and Children Are Slain By the Bolsheviks

New York.—A graphic story of a reign of terror in Bolshevik Russia is recited by John A. Embury, United States consul at Omsk, the seat of the Kolchak government, who has arrived here from his assignment in St. Petersburg. He declared no language could adequately picture the scenes of murder, violation of women, arson and theft which he had seen personally or had described to him by credible eye-witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa, by photographs, many of which he declared he had taken himself, and which record appalling instances of wholesale butchery of women and children.

Mr. Embury said he had visited Ufa immediately after the Bolshevik withdrawal before Kolchak's forces. He learned from survivors of Bolshevik occupation, he said, that the Bolshevik soldiers had looted the entire city and then organized a "government" consisting of committees. One of these committees, he said, was called the extraordinary committee on executions.

This committee, he declared, had all members of the city government rounded up, and ordered virtually all of them shot. The head of the committee, he said, had personally executed the president of the council, who was brought before him on a stretcher.

A few days after his arrival in Ufa, Mr. Embury said he followed a crowd of residents into a nearby wood, where they came upon scores of bodies of women and children, disclosed by the melting snow, who had been driven into the woods and brutally slain. He exhibited a photograph showing twenty of these victims, the bodies of many mangled almost past recognition. About 200 bodies were found in the woods, he said. Pupils at Ufa high school, he said, had been lined up and questioned as to their sympathies, and all who did not profess sympathy for the Bolsheviks were shot or put to work of the most degrading character.

At Ossa, a city of about 30,000, Mr. Embury declared 2,000 bodies were found on the outskirts when the snow melted. He displayed photographs of some of these victims taken by Col. Feustler of the American Red Cross.

Pensions Bill Is Up For Discussion

New Measure Considered Satisfactory By Major Williams, M.P.

Vancouver.—"A new pensions' bill will be brought in parliament this session. It does not meet entirely with my approval, but I want to tell you that it undoubtedly meets the most general provisions of any pensions' bill in the world," said Major George B. Andrews, M.P. for Centre, Winnipeg, speaking as a delegate at the G.W.V.A. convention.

The statement made by Major Andrews followed the presentation by the resolutions committee of a long resolution, comprising no fewer than 17 sections, in which the desires of veterans as set out in a large number of resolutions from various branches had been incorporated, and which, it was hoped that the Dominion convention would endorse.

Help In Time Of Trouble

Britain and States to Act in Concert in Aiding France

Paris.—The Franco-British and Franco-American treaty, the Journal says, provide that the intervention of Great Britain and the United States on behalf of France against Germany shall be interdependent. Great Britain and the United States, it is advised, will only help France by combined action and not separately. The paper declares that their intervention must occur if the disarmament of the Rhine territory is not sufficient to protect France from German aggression.

No Abatement in Forest Fires Hailleybury, Ont.—Two more settlers in the bush country west of the town are reported to have lost their farm buildings in the Shark Lake fire, which is still raging. The victims are named, Olsen and Fernholm. Other properties are in grave danger as the flames are spreading before a rising wind.

Some slight showers of rain are reported to have fallen in different parts of the country, but the effect on the fires has been negligible. At Fredrick House the plant of the Rexey Board company is menaced, but is still standing.

British Premier On Making Of Peace

London.—Rt. Hon. David Lloyd George, the premier, had a good reception from all sections of the House of Commons. His speech was largely imprudent and discursive. He told of the peace conference's efforts to prevent war in the future, and reviewed some of the striking restrictions put upon Germany in the treaty signed at Versailles.

Discussing the determination of the allied and associated powers to place on trial William Hohenzollern, the former German emperor, as the chief responsible for the war, he declared that if such a course had been followed after other wars "there would have been fewer wars."

It was the intention to make such an example of Germany as to discourage others from "ever again attempting to repeat this infamy."

There was a significant passage when the premier first mentioned the league of nations. Many of the members cheered, but seemingly nearly an equal number burst into laughter.

"I beg of you to try it. I beg of you to take it seriously," the premier protested. Proceeding, he declared: "If the world could be saved from the horrors of war, it would be a great achievement."

One member shouted, "Nobody wants it."

The premier paid special tribute to the work of the British expert advisers, which, he said, had been the object of the admiration of the nations at the conference, and ended with an appeal for the victory loan, with one of his typical dashes: "Don't demobilize the spirit of patriotism!"

Speaking of the territorial terms of the treaty, he said the territory taken from Germany was a matter of restoration. It was restoration of Alsace Lorraine, he said, taken forcibly the land to which its population was deeply attached; it was a restoration of Schleswig-Holstein, the taking of which he described as "the means of Hohenzollern's frauds, robbing a helpless country in the pretence they were not doing it, and then retaining the land against the wishes of the population"; a restoration of Poland, torn to bits by Russian, Austrian and Prussian atrocity and now reunited under the flag of Poland. And, he added, "they are all territories which ought not to belong to Germany."

The British delegation, the premier said, has taken a stand resolutely opposing any attempt to put a predominantly German population under Polish rule, as it would be fool.

Seats May Be Reserved By Mail

Regina.—Seats may be reserved for parties by mail at the Pantages theatres in both Saskatoon and Regina for the big fair week attraction. The program has been specially selected to suit the times, and will be found to comprise some of the very best vaudevillians of the day. It is suggested that you drop a line to the manager of either of these theatres stating your wishes, and you can rely on prompt and courteous attention.

Council Of Five Directs Conference

Paris.—Premier Clemenceau, Foreign Minister Balfour, Secretary of State Lansing, Foreign Minister Pichon, Baron Makino and Viscount Chinda of Japan, and Foreign Minister Tittoni of Italy, decided to constitute a new council of five. This council of five will have as its members Foreign Minister Balfour, Secretary Lansing, M. Pichon, Foreign Minister Tittoni and Baron Makino, and head of the Japanese delegation. The council will temporarily assume direction of peace conference affairs. A council of ten will not be constituted at the present.

Foreign Minister Tittoni made it clear at the meeting that Italy desires that all territory taken from Austria be definitely disposed of in the Austrian treaty. This immediately projected into the foreground the Flaminio question, which had been hoped could be avoided.

While the council received the admission from Signor Tittoni that the new Italian delegates will be more moderate than the old, it was a distinct disappointment when Tittoni expressed Italy's desire to have all the territory taken from Austria definitely allotted in the Austrian treaty, as this foreboded a lengthy discussion. The council decided to appoint immediately a committee to execute the Austrian treaty, also a committee for the execution of reparations, and still a third, to outline the Bulgarian frontier.

ish to have another Alsace-Lorraine in Europe.

"I do not think anyone can claim the terms constitute injustice to Germany," the premier said, in discussing the reparations clauses, "unless they believe justice in the war was on the side of Germany. Having regard to the uses Germany made of her army, there is no injustice in scattering and disarming it. If the allies had restored the colonies to Germany after the evidence of ill-treatment of the natives, and the part the natives have taken in their own liberation, it would have been a base betrayal."

"Then take the trial of those responsible for the war. If war of this kind are to be prevented, those personally responsible for them, who have taken part in plotting them, should be held personally responsible. Therefore the cabinet decided that the man who undoubtedly had the primary responsibility, in their judgment at any rate, should be tried for the offences he committed in breaking treaties he was bound to honor, and by that means bringing on the war."

"It was an exceptional course, and it is a pity it was, because had it been done before there would have been fewer wars. The allied countries unanimously decided that the tribunal—an inter-allied one—should sit at London for the trial of the person chiefly responsible for the war."

"Those guilty of submarine outrages ought to be punished, for the officers should know that they would be held personally responsible for offences against the laws of war."

Premier Lloyd George argued that it was not vengeance "to take every possible precaution against a recurrence of the war, and to make such an example of Germany as will discourage ambitious rulers and peoples from ever again attempting to repeat this infamy. The German people approved the war, and therefore it was essential in the terms to show, if nations committed any aggression against their neighbors, what lies in store for them."

The premier's reference to the United States and England, agreeing to aid France if she should be attacked was loudly cheered. After referring to guarantees in the treaty, such as disarmament, which he declared should not be a "scrap of paper," the premier spoke on the bill dealing with the United States and British guarantees in the event of an unprovoked attack on France, saying he did not suppose any section of the House would oppose that.

Open to Returned Soldiers

Winnipeg.—According to S. Larkin, of the Winnipeg Land Settlement board, the Dominion government is preparing to open for soldier settlement the Riding Mountain and Turtle Mountain forest reserves in Northwest Manitoba.

"There are times when it isn't necessary to speak the truth—but at such times it isn't necessary to speak at all."

Open to Returned Soldiers

Winnipeg.—According to S. Larkin, of the Winnipeg Land Settlement board, the Dominion government is preparing to open for soldier settlement the Riding Mountain and Turtle Mountain forest reserves in Northwest Manitoba.

The council will hear the remaining delegates and Mr. Makinoff, the Russian ambassador at Paris, on the Rumanian boundary, and especially the disposition of Bessarabia, a large part of which Rumania claims, and at present administering, much against the Russian command in Paris. The Russians insist that Rumania seized this territory under the guise of a specially created local government, which immediately ceased to exist after the Rumanians gained control.

The agreements between France and the United States, and France and Great Britain for the defence of France against attack by Germany, it is understood, will not become valid as far as Great Britain is concerned until the Franco-United States convention is ratified by the United States senate.

Belgium has named its two members of the commission which will revise the treaty of 1839 and the peace conference has requested Holland to name its members so that a meeting can be held soon in Paris.

MONEY TO LOAN

Osler, Hammond and Nanton, general agents for North of Scotland and other Mortgage Companies have \$30,000,000 invested in farm loans in the West, the returns from which they re-invest in the same way they have lots of money now. Their Inspector, Mr. Stickney, who was in the district a few days ago, says "They have barrels of money, and that no good loan will be refused." Let them renew the loan you have on your homestead, and give you more on your pre-emption, give you money to prove it up if you wish Or let them give you a new loan, as large, and probably larger, than you can get elsewhere. The district needs all the money we can get hold of in this way. Pay up your indebtedness to the bank, to the municipality, to the school, and to others. We can furnish the money. Loans for five years, repayable in three years, without extra charge. Interest at 8 per cent.—nothing but the interest to pay each year.

Kidney Back Pains Permanently Cured

**Dr. Hamilton Guarantees Prompt
and Thorough Cure**

I can cure you.
I have a remedy that has never failed in kidney disease.
My wonderful preparation is known as Dr. Hamilton's Pills of Mandrake and Guarantees Dr. Hamilton's Pills will restore the worst case of kidney suffering.
Pain in the back, sides and hips will be relieved.
Dizzy spells, headache and reeling sensations will be quickly remedied.
Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills.
If your run-down and languid condition can't be cured by Dr. Hamilton's Pills, then you are hopeless.
In thousands of cases Dr. Hamilton's Pills have restored health, and more; they have built up constitutions that defied further inroads of kidney disease.
Purely a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where can you find a remedy in efficiency to approach Dr. Hamilton's Pills?
To be candid, you can't.
All dealers sell Dr. Hamilton's Pills, in yellow boxes, 25c.

Britain Planning Air Supremacy

**Government Subsidies Urged By
Committee of Civil Investors**

London.—Great Britain is actively engaged in laying the foundation of a world-wide aerial supremacy as complete as was her maritime supremacy prior to the war. Her plans to achieve this important object were started even before this country entered the war.

Moreover, she is completely convinced that aerial transportation will revolutionize her widespread empire and firmly weld it together by the speed that is the chief attribute of aircraft.

Realizing the importance, aeronautics would play in the economic development of the world in general, and the reconstruction period after the war in particular, the British Government appointed the Civil Aerial Transport Committee May 22, 1917, to "consider and report to the Air Ministry with regard to."

"(1) The steps which should be taken with a view to the development and regulation after the war of aviation for civil and commercial purposes from a domestic, imperial and an international standpoint.

"(2) The extent to which it will be possible to utilize for the above purpose the trained personnel and the aircraft which the conclusion of peace may leave surplus to the requirements of the naval and military services of the United Kingdom and overseas dominions."

The report lays down the possibility of commercial air routes throughout British dominions, but says in connection therewith:

"We recognize, however, that military considerations must override all others."

By far the most remarkable portion of the report is the reservation made by Frank Pick, one of the members of the committee, when signing it. In it Mr. Pick says:

"The strategic position of this country in relation to the air differs fundamentally from the strategic position in relation to the sea. So long as the shores of the North Atlantic are occupied by the leading civilized peoples so long the British position is advantageous as a centre of sea power. But if air power is to usurp to any degree the place of sea power, and this seems probable so long as flight over land holds appreciable advantages over flight over sea, so the position of a country placed centrally as regards land must be superior to the position of a country placed centrally as regards water."

"The right to pass across other national territory without let or hindrance, relief from varying terms and conditions attaching to flight which may be onerous and irksome, the absence of customs restraints or tariff restrictions, and generally the absence of the apparatus for hampering or artificially routing trade are all wanted. On all these grounds it is submitted that the case for an international settlement is strengthened."

The committee has exhaustively studied the possibilities of aerial

transport with rigid dirigible airships. The investigation covers special voyages made in the giant sixty-ton airships of the R-34 type developed by the naval section of the British air force.

General Maitland himself in a review of the airship situation makes this prediction:

"The many practical advantages which the airship possesses for commercial purposes are not, perhaps, always appreciated.

"Present day airships, which in no way approach the limit of size, have a disposable lift of more than thirty tons, which enables them to embark on long flights without the necessity of descending for replenishment of fuel.

"There is no reason why an airship should not be fitted with engines as silent as those of a motor car. Sleeping accommodations can, in any case, be provided well away from the power plant, and there is complete absence of such noises as the singing of wires which would detract from the comfort of passengers.

"The power plant can be readily split up into as many units as desired, and failure in the power plant does not involve immediate descent, while running repairs can easily be effected in the air.

"Even with landing grounds only ten miles apart, an airship would be compelled to fly at a minimum height of about 3,000 feet, whereas an airship can cruise safely a few hundred feet above the ground, which considerably enhances the pleasure of the passengers by affording them an opportunity of enjoying the scenery."

Market For Canada's Flax

**Great Opportunity for Exporters in
This Country**

Montreal.—If Canada has the flax, then there is a splendid market open to her in the United Kingdom. That was the opinion expressed in Montreal by Mr. John Rae, of an old-established firm in London, who has visited many Canadian centres in order to ascertain the supplies of flax available for export from the Dominion.

Before the war, Mr. Rae pointed out, Great Britain imported the bulk of her flax from Russia, Holland and Belgium. At one stroke Russia is out of the market, while the supplies from Holland and Belgium are very limited, hence the British trades have cast their eyes toward Canada in the hope of finding a source of supply here.

Mr. Rae pointed out that if Canada could compete with foreign countries, he did not see why she did not make a bid for that market and thus establish another export connection. This was the opportunity for Canada to develop this market while the other sources of supply are unable to continue under the abnormal conditions. With her abundant land and a good quantity of flax, there was a great opportunity for exporters in this country.

To handle the flax from the sowing to the finished product he did not think was advisable in Canada at the present time.

World's Stormiest Place

**Is Said to Be Westernmost Point in
Alaska**

The stormiest place of all the world is said to be Cape Prince of Wales, which is the westernmost point in Alaska. It is marked by a considerable mountain 2,210 feet high, and fierce winds blow there perpetually. Storms from the Arctic Ocean assail this inhospitable region all the year round.

On the south side of the mountain are Eskimo dwellings, "figios" dug underground and walled and roofed with timbers. No trees grow in that region, but the natives of far northern Alaska have always a plentiful supply of driftwood, carried from the Yukon river by an ocean current that skirts the coast. The underground igloos (constructed to escape the storm and wind) are so built as to form connecting rooms, with communicating doors that are mere holes through which the occupants are obliged to crawl on hands and knees.

The only ventilation is afforded by the vertebra of a whale (which serves as an air tube), thrust up through the roof.

On the north (or Arctic) side of the cape is one of the most prosperous of native villages, whose inhabitants keep and breed reindeer, and sell the meat at a good price to passing ships.

An Opening

"Yes, I guess I can give your son a job. You are one of our largest stockholders. What can your son do?"

"To be frank, nothing."

"Well, we have a number of young men doing that. He might assist one of them."

The silent fisherman is the most successful. Girls should remember this when angling for husbands.

Some men's greatness is due to their smallness.

SUNDAY SCHOOL LESSON

LESSON FOR JULY 13

BAPTISM

I. The Apostles' Commission (Matt. 28:18-20).

1. The authority of Jesus (v. 18). God gave Him all authority in heaven and on earth. As mediator and con-king, He possessed all authority.

This authority extends over all the material world, angels, wicked men, devils and His own people. God highly exalted Him and gave Him a name which is above every name (Phil. 2:9).

There is no other way of salvation, for the entire matter of redemption is in His hands (Acts 4:12). Since God so highly honored Him, it is extreme folly to expect to be saved while disregarding Him.

2. The obligation of the apostles (vv. 19-20).

It was to teach, that is, make disciples of all the nations (v. 19). They were to make known to the whole world that Christ had died to save sinners and that God had committed to Jesus the redemption of the world. Those who are Christ's disciples are bound to proclaim Him to others.

3. Baptize those who believe (v. 19). This is the divinely appointed way of making a public confession of faith in Christ. The disciples must publicly take a stand for Christ. The application of water symbolizes the purifying effect of the blood of Christ and solemnly dedicates to the service of God. This baptism must be in the name of the Father, Son and Holy Ghost, showing that the believer has been brought into definite relationship to each member of the Holy Trinity.

(5) Teach the disciples obedience (v. 20). Profession is not enough, it must issue in obedience. Faith must result in works. To call Jesus "Lord" and do not the things which he says profits nothing.

4. The all-sufficient promise (v. 20). The Lord had told the disciples what would happen to them after He had gone away. He made it plain that perils of all kinds awaited them. Though the difficulties were great, nothing mattered so long as they had the presence and fellowship of the all-powerful Savior and Lord.

II. The Baptism of the Eunuch (Acts 8:34-40).

1. Philip preached Jesus Christ to him (v. 35). At the invitation of the eunuch Philip joined himself to the chariot and found the eunuch reading from the fifty-third chapter of Isaiah. Beginning with this Scripture he preached Christ. He did not preach Christ as a great teacher, but as a savior who had suffered and died in the stead of the sinner. He preached Him as one who had offered himself as a ransom for many. The fact that the eunuch, a great statesman, needed an interpreter of the Scriptures, even such a plain passage as the fifty-third chapter of Isaiah, shows the absolute need of a preacher. The printed page is valuable, but there will always be the need of a preacher. The gospel needs to be experienced before one can be a witness of its saving power.

2. The eunuch requesting baptism (v. 36).

When Christ is truly preached men naturally desire to confess Him in baptism. In many quarters baptism has been unduly emphasized, but in others it has been disregarded. It is highly important that an intelligent understanding of its meaning be possessed; for that of which Jesus Christ gave an example and a command is highly important.

3. Philip baptizing the eunuch (v. 38). Having secured from the eunuch the proper confession Philip baptized him. It is faith in Christ that saves, but those who have genuine faith desire to seal it in baptism.

4. The eunuch rejoicing (v. 39). Confession of Christ brings joy. Those who obey the commandments of the Lord can go on their way rejoicing.

5. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

6. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

7. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

8. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

9. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

10. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

11. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

12. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

13. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

14. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

15. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

16. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

17. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

18. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

19. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

20. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

21. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

22. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

23. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

24. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

25. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

26. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

27. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

28. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

29. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

30. The eunuch's journey (v. 40). The eunuch's journey was a journey of triumph.

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite gone, and the body weak. If you come over you, you can't sleep at night, and you wonder if life is worth living.

All to those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over."

I had hot flushes and fainting spells. When I was on the second box of your pills, I felt better. I began to feel that they were doing me good, so I kept on until I had used six boxes, when I felt like a different person."

"I am never without them in the house, and highly recommend them to all who suffer with nervous shock. Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont."

Fate Of An Arctic Aviator

Three Intrepid Men Have Never Been Heard From

The recent attempt to cross the Atlantic by aeroplane recalls to mind the fact that an attempt was made to fly to the North Pole in a balloon 20 years ago, by the noted Swedish scientist and aeronaut, Salomon August Andrée and his two companions, Nils Strindberg and Ferdinand Frakel.

The three intrepid men were last seen sailing over the snowy peaks of Spitz-bergen and have never been heard of since. Their fate is a mystery locked away in the vast silences of the lands of eternal snow and ice.

Andrée was not only an expert balloonist, but also a skilled scientist, and he had carefully studied the question of Polar explorations. He had observed that at certain seasons of the year a steady current of air floated toward the north. Andrée's plan was to set sail in this current, float over the pole, alight and take observations, and then wait for a favorable wind to blow them home again. This, it must be remembered, was before balloons and aeroplanes had reached their present state of efficiency.

King Oscar II. of Sweden himself was a heavy subscriber to the fund which made the attempt possible, and at last, after months of waiting, the three men, with their supplies, took to the air on the 11th of July, 1897. Disaster threatened at the very outset, for the balloon dipped suddenly, and only the frantic throwing overboard of ballast saved the vessel to rise. It was not long before it was lost to sight. It was never seen again.

Two months of anxiety and suspense followed, and then the Swedish government sent out three search parties. Various rumors were traced to their source, every possible clue was followed up, but without any tangible result. One circumstantial report was to the effect that the Eskimos in the Northwest had seen a "great white house" descending from the skies, and that three men, starved to death, had been found in it.

Tracing parties were sent out, but it was impossible to find the tribe, and the truth of the story was left in doubt.

Campaign On Anarchists

U.S. Government Makes Provision for Vigorous Steps Against Extremists

Washington.—Provision for vigorous steps by the federal government against bomb throwers and other anarchists and radicals, declared by government officials to be plotting the overthrow of the government, and spending \$2,000,000 monthly to that end, were made in the sundry civil appropriation bill, as reported to the senate.

In reporting the bill, the senate appropriations committee increased from \$1,400,000 to \$2,000,000 the fund of the department of justice for general suppression of crime. In addition, it added \$300,000 for a special fund to enforce the law against alien anarchists through deportations.

Canada's Aerial Record

London.—At a dinner of the Canadian air force at Shoreham the pilots assembled there had destroyed an aggregate of 219 enemy machines. Gen. Currie, commander-in-chief of the air force, would be maintained in Canada. He advocated the retention of identity of units that had served in France in the reorganized militia to maintain the traditions built up in the field.

English Prime And Dry America

One of the Bravest Things History
Had to Show

London, England.—Presiding at the annual meeting of the Church of England Temperance Society at Lambeth Palace, the Archbishop of Canterbury described the drink prohibition in America as one of the most remarkable episodes in the whole history of social reform. "Our American brothers," he said, "always do things on an exceptional scale. There are never any half measures or any doubt about what they mean."

His Grace said that he had found the strongest difference of opinion amongst Americans as to what would happen during the next year. If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, and he did not think it was wise to dogmatize as to what would be the result of prohibition. None of them, however, would be in any doubt as to the thankful recognition they would give to what was one of the bravest things history had to show—of a nation grappling with a nation's passion.

In England the best general public opinion had supported the restrictive policy which had been in force even when it had been most severely applied. Where restrictions were thought likely to prove most unpopular they had proved nothing of the kind. It would be tedious today, because war was on, in regions where restrictions had proved to be not unpopular, to relax these restrictions, because a certain number of people had interests involved. They must be resolved to use every bit of influence they could to secure the continuance of restrictions which had been proved to work so well.

It is not a trouble about which people care to speak, but if you ask your friends about Dr. Chase's Ointment you will be surprised to hear how many have been cured of piles by its use. It is the one treatment for piles on which you can depend absolutely for permanent relief.

Mr. B. F. Tracy, Mining Ont., writes: "For about thirty-five years I was troubled with itching piles, which kept me from sleep until I was completely worn out. I tried everything I could think of, but nothing relieved me. I finally tried Dr. Chase's Ointment, and in a few days I was cured. I have never been troubled with piles since, and can heartily recommend Dr. Chase's Ointment to anyone suffering from this terrible agony or from any other skin disease."

(This is to certify that the above statement is correct in every particular.)—Rev. H. Berry, pastor Methodist Church.

Mr. H. MacDonald, Warkentin, Ont., writes: "Having suffered from piles for some time, I finally tried Dr. Chase's Ointment, which afforded almost instant relief, and in time, cure. I have great faith in Dr. Chase's Ointment, and think it superior to any ointment on the market. I would advise anyone suffering from piles to give it a trial."

Many continue to suffer from piles to the belief that a surgical operation is the only cure. Fortunately, Dr. Chase's Ointment is available, and has saved many thousands from the risk and expense of the doctor's knife. It costs a box, all dealers, or by mail, send to Dr. Edman, Bates & Co., Limited, Toronto.

Do You Know the 9 Points?

One talks about the "nine points of the law," one hears the expression, but not everyone can enumerate them. For future reference then, the following are the nine requisites for success in a suit-at-law:

1. A good deal of money.
2. A good deal of patience.
3. A good cause.
4. A good lawyer.
5. A good counsel.
6. Good witnesses.
7. A good jury.
8. A good judge.
9. Good luck.

Genuine Aspirin Has "Bayer Cross"

Tablets Without "Bayer Cross" Not Aspirin At All

Get Genuine "Bayer Tablets of Aspirin," not just a German citizen profit by its sale or ever be allowed to acquire interest.

The original, world-famous Aspirin, marked with the "Bayer Cross" is now made in Canada and can be had from your druggist's in handy tin boxes of 12 tablets and larger "Bayer" packages.

Genuine Aspirin has been proved safe by millions for Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Grippe, Neuritis. Aspirin is the trade mark registered in Canada, of Bayer Manufacturing of Monacocaster of Salze, Reich.

A Foreigner

"The professor seems a trifle cast down."

"Just a little flabbergasted. He uses very correct English."

"Yes, a slangy salesgirl had to call a floorwalker to interpret for her. She thought the professor was some kind of a foreigner."

Worth Seeing

"Lady outside wants to see you."
"I wonder if she's worth seeing?"
"She is. Blue eyes, golden hair, perfect figure. Oh, boy!"

A mau can still get a good pair of shoes for \$6, but a woman must pay more, because her shoes come higher.

Japan Tourists Goal

30,000,000 Yen From Influx of Foreigners in 1918

Japan receives from visitors to her shores a sum exceeding the value of her exports of coal.

The milardo's empire is estimated to have received more than 30,000,000 yen from the influx of foreigners in 1918, or \$2,000,000 more than the total exports of coal made by Japan. Japanese coal dominates the fuel situation in this part of the world.

The disorders in Russia have sent visitors of this nationality up from approximately 2,000 a year to over 8,000 in 1918. Those of British nationality have remained at an average figure of 3,000 a year, their movement not being appreciably affected by the great war so far as volume is concerned.

The Dutch have increased decidedly, now numbering approximately 50,000. The French have doubled their number, French subjects to the extent of 600 passing through Japan in 1918. The restraints resulting from the war have been most pronounced in the case of the United States citizens.

Where Babies Are Sailed

The strange custom of sailing newborn babies is still practiced in certain regions of Europe and Asia. The method varies with the differing nationalities of the people employing it. The Armenians of Russia cover the entire skin of the infant with their oil of olive. This is left on the baby for three hours or more, when it is washed off with warm water.

A mountain tribe of Asia Minor are even more peculiar in this regard than the Armenians, for they are alleged to keep their new-born babies covered with salt for a period of 24 hours. The modern Greeks also sprinkle their babies with salt. The mothers imagine that this practice brings health and strength to their offspring, and serves to keep away the evil spirits as well.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in their house may feel that the lives of their little ones are covered with salt for a period of 24 hours. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by government analysts to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Says Communism Will Succeed In Hungary

Bela Kun Declares Allies Should Raise Blockade

Budapest.—"The allied policy toward Hungary should be one of non-interference in our internal affairs, and the allies also should raise the blockade," Bela Kun, foreign minister of the present Hungarian government, told the Associated Press correspondent, in discussing assertions that Hungary had been interfering with the affairs of the Austrian republic. He also expressed confidence that communism would succeed in Hungary.

Resuming his discussion of the reported friction with the Austrian republic, Minister Kun said: "It is altogether untrue. Austria is seeking with this allegation to deceive the public so that it may be enabled to continue the domination of Hapsburg capitalism. It is also untrue that we bought rifles and guns from the Italians. Our policy is peace. Sooner or later our frontiers will be cleared, when the allies understand the situation better, and when they realize that the best policy is peace dictated by reason."

A man always tries to follow the straight and narrow path when it comes to shovelling snow.

Penury is often the unexpected wages of the pen.

The more innings a man has the more he enjoys his outings.

International Air Race Announced

Toronto.—An international air race, which will start simultaneously from Toronto and New York, will be held on August 25 with the Prince of Wales as the starter, it has been announced here. Stops will be made at Buffalo, Syracuse and Albany.

A prize of \$5,000 and a trophy have been offered by John M. Bowman, of New York. It is expected there will be more than two score entries.

The foe of indigestion—indigestion is a common ailment and few are free from it. It is a most distressing complaint and often the suffering attending it is most severe. The very best remedy is Partridge's Vegetable Pills taken according to directions. They rectify the irregular action of the stomach and restore healthy action. For many years they have been a standard remedy for dyspepsia and indigestion, and are highly esteemed for their qualities.

The professor of elocution was instructing the young man in the art of public speaking.

"When you have finished your lecture," he said, "you must bow gracefully and leave the platform on tip-toe."

"Why on tip-toe?" queried the youth.

"So as not to wake the audience," replied the professor.

Minard's Liniment Cures Distemper.

It is said that contentment is better than riches—but most people are willing to take chances with the riches.

A proverb is an undisputed fact with whiskers on it.

The oil for the athlete.—In rubbing down, the athlete can find nothing finer than Dr. Thomas' Electric Oil. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Hung Hats on Kitchener's Peg

"Hang your hat on Kitchener's peg," was the word that went down the line when a group of United States fighting men passed through the peer's lobby in the House of Lords, London. And every American took off his hat and hung it for a second on the peg that bore the name of Lord Kitchener. It was a breath of regulations, but a showing of regard for the dead field marshal that the British appreciated.

Minard's Liniment Cures Gargle in Cows.

Ship Centenarians

The ship of today, even without any submarine risks, cannot hope to attain the ripe old age of its forefathers. Nelson's Victory was over 40 years old when she took part in the battle of Trafalgar, and the Betsy Cannon, which, according to tradition, brought over William and Mary in 1688, survived until 1824, when she was wrecked at the mouth of the Tyne.

Lloyd's Register for 1910 contained the Olivia, built in 1819, and, writing in 1883, Admiral Martin recorded that the small vessel in which James II. escaped from Rochester was still in use conveying goods from one dockyard to another.

Kaiser May Submit To An Enquiry

The Hague.—The former kaiser's attitude toward the allied demand that he be held responsible for the war is dependent on the lengths to which the allies intend to carry their examination, it was reported. It was unofficially said that Wilhelm would not object to giving himself up to an allied tribunal if it merely passed judgment on the role he played in starting the war, in violating neutrality and in nonobservance of international law.

A woman may pretend to be convinced against her will, but she never is.

A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomach treatment for Catarrh and Bronchitis. They seldom cured and Catarrh has become a national disease. Today the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhazone. It is easy then for Catarrhazone to cure. It contains the essence of pure pine balsam, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhazone. The dollar outfit lasts two months and is guaranteed to cure; small size 50c; trial size 25c. All druggists or Catarrhazone Co., Kingston, Ont.

Britain's Gigantic Losses During Drive

Minister of Munitions Asks for Vote of Provision of 185,000,000 Pounds

London.—In the house of commons F. C. Kellaway, deputy minister of munitions, asked for a vote of a provision of 185,000,000 for the year ending March 31, of which £90,000,000 is an aftermath of the war, and the balance represents supplies to other departments of the government, including estimates of the war office, air ministry and local government boards, the last mentioned being purchases for the government's housing scheme.

The total expenditure of the ministry of munitions since its establishment was £1,834,507,941. Mr. Kellaway revealed that the British losses in materials during the German offensive in the spring of 1918 were 1,000 big guns, 10,000 tons of ammunition, 4,000 machine guns, 400,000 rifles, 700 trench mortars and 200 tanks, yet within a fortnight all had been replaced, and in many cases with superior weapons. On the day the Hindenburg line was broken, the British fired 943,000 shells, more than were fired in the whole South African war. Fifteen thousand tons of poison gas were supplied in 1918 alone.

The introduction of a cost system saved the country £300,000,000 in the ministry of munitions alone; 7,344 contracts, involving £102,000,000, were still running, and disposals by the department had realized £130,000,000 to date. It was getting such good prices for the state that it was now accused of profiteering. Six hundred and fifty thousand pounds sterling has been realized from the sale of motor transports during the last three weeks.

Statue of Queen Victoria for B.C.

London.—A bronze statue of Queen Victoria, 13 feet high, and weighing two tons, is shortly to be conveyed by steamer for the erection in the parliament house garden at Victoria, B.C. It was fashioned some years ago for the British Columbia government and it is hoped that it will arrive in time to be unveiled by the Prince of Wales.

State of Ohio, City of Toledo, Lucas County.

I, Frank J. Cheney, make oath that he is senior partner of the firm of F. J. Cheney & Co., proprietors of the "Black Blot" Catarrh Cure, and that said firm is doing business at 1111 Chestnut Street, Philadelphia, Pa., and that said firm is the sole and exclusive proprietor of said "Black Blot" Catarrh Cure in the United States of America.

Sworn to before me and subscribed in my presence, this 6th day of December, 1918.

(Seal) A. W. Gleason, Notary Public.

ALLS CATARRH CURE is sold internally and acts through the blood on the mucous surfaces of the system.

Druggists: F. J. Cheney & Co., Toledo, Ohio.

Japan Sends More Troops to Russia

Tokio.—Japan is sending reinforcements, consisting of a brigade of infantry and a company each of cavalry and engineers, to Vladivostok, because of conditions existing in the maritime province of Siberia, it is officially announced. The Bolsheviks recently have been active in this region, and the announcement says, "have often attacked Japanese contingents, causing casualties."

"Black Watch"—The Best Black Pig Chewing Tobacco on the Market

Regina, Sask.—According to the announcement of A. E. Wilson, seed grain commissioner of the Dominion government with headquarters here, the sum of \$5,000,000 was expended for the relief of farmers who experienced a shortage of crop with consequent lack of seed grain, in the three prairie provinces of Manitoba, Saskatchewan and Alberta. Nearly 4,000,000 bushels of seed grain were distributed between last fall and this spring.

Warnings sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Extirminator to drive out the parasites.

Bonus for Ranks of Canadian Navy

Ottawa.—In order to secure 500 officers and men required for service in Canadian navy, the department of naval service has decided to offer a bonus over and above the present approved rate of pay and becoming effective in the case of all who joined the navy subsequent to June 1, 1919. The bonus will be 75 cents per day for seamen, \$1 per day for petty officers, sub-lieutenants, lieutenants, lieutenant commanders, commanders, captains and equivalent ranks.

The bonus is given because of the impossibility of securing recruits at the present rate of pay. Provision is also made for married allowances to married men and officers.

Girls are delicate vessels, which require a small fortune every season to keep them in style.

There is many a slip after the cup touches the lip.

SAVE ON YOUR SHOE BILL

Make every pair of shoes you buy give the longest possible wear. Use on them the very best polish.

GOLD LEAF SHOE DRESSING

contains oil to soften and preserve the leather. Gold Leaf is economical—a little on the dander produces a black, long-lasting shine. No rubbing required.

Remember the big red package.

Spring Fever—What Is It?

THREE WEEKS after the afternoon, and absolutely no "pep." You call it spring fever, but is it?

When you are constipated, waste matter remains in the intestines, decays, forms poisons which are absorbed into your blood and carried by it to every cell in your body. When your cells are thus poisoned, of course you have no "pep."

Pills, salts, mineral waters, castor oil, etc., merely force the bowels to act, and make constipation and self-poisoning a habit. Nujol is entirely different from drugs as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle of Nujol from your druggist today and watch your "pep" come back.

Warning: All druggists insist on Nujol. You may suffer from substitutes.

Alfalfa Supreme

By Chemical Test

Found to Be Much the Highest in Fat

In a report issued from the chemistry department of the Manitoba Agricultural College, corn, Sudan grass, timothy, alfalfa, clover, rape, and lucerne are compared as to their feeding values. The analysis turns out very favorably for alfalfa, which in its natural state is found to be about double its closest competitor among the cereals in protein, 50 per cent. higher than Sudan grass in carbohydrates, and much the highest in fat. On account of the stems the ash content is fairly high, however. Sudan grass is medium high in protein, very high in heat-forming elements (it should be especially valuable here in winter feeding), and contains nearly 13 per cent. of fat. Cereals and peas, and corn stand about third in the list in feeding value. The high succulence of corn is of especial value in feeding dairy animals.

ON THE MARRIAGE DAY

Romance ceases and history begins—and corns begin to go, too, when "Putnam's" is applied—it takes out roots, branch and stem. Nothing so sure and painless as Putnam's Corn and Wart Extract; try "Putnam's" 25c at all dealers.

Soldiers Take Up Alberta Land

Total Applications for Loans Are Over Four Thousand

Edmonton, Alta.—Alberta leads all other provinces of the Dominion in the number of soldiers taking up farming through the efforts of the Soldier Settlement Board.

The total applications made in Alberta for loans are just over four thousand, exceeding by nearly a thousand those made in any other province, while the total number of loans already approved is 1,122 more than one hundred more than any other province, east or west.

During the first two weeks of June more than \$2,000,000 had been loaned to soldier settlers, while the total loans since the establishment of the board in Canada now have reached the huge sum of fourteen and a half million dollars.

A word to the wise is sufficient—if you call him a liar.

The bigot is always sure of something he knows nothing about.

Too Deep for Him

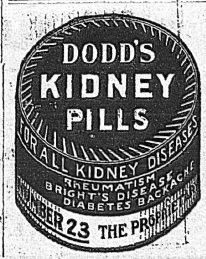

An ambitious young author sent a humorous paragraph to the editor of a daily paper. Time passed, and he heard nothing, nor was it printed. So he wrote to inquire about it.

"I sent you a tip about ten days ago. I have heard nothing respecting its sale receipt, and should be glad to hear whether you have seen it."

"The editor's reply was as follows: 'Your joke arrived safely, but up to the present we have not seen it!'"

The Bravest Man

Modest young lieutenant (reporting to C.O. after a thrilling day in No. 10 "Machine" land): Captain, I wish to report Private Hink's conduct in the highest terms of praise. He is the bravest man in the world. He followed me every place I went.—Edinburgh Scotsman.

Chinook Breezes

J. M. Davis is shipping a car of cattle to Calgary this week.

Jack Dempster, from Toledo, Ohio, is visiting in Chinook this week.

Mr. C. A. Holden lost a valuable 2-year-old standard bred mare by poisoning from gopher poisoning.

A valuable horse belonging to Mr. Dowling, who lives north of Chinook, had its leg broken one day last week.

Mr. Stata and sons Vincent and Harry, spent a very pleasant week at Calgary, returning home on Monday.

The Chinook Sunday school and friends enjoyed a very pleasant picnic on the farm of Mr. M. E. Bird, south of the town, on Wednesday afternoon.

The platform at the Chinook depot is being extended about 100 feet to the west and the same east, and takes in the whole length of the passenger cars and engine.

School Inspector Mitchell, and Mrs. Mitchell and daughter, leave today by motor for Edmonton for some three weeks. Mr. Mitchell will be on the school examination papers.

Last week Mr. Lewis, north of Chinook, lost a very fine team of grey horses through eating gopher poison. More care should be taken when putting out gopher poison, particularly where animals are pasturing.

Messrs. J. W. Deman and family, Mr. and Mrs. Jos. Deman, Mr. and Mrs. Dell, and Mrs. Dell's sister, leave by cars tomorrow morning, via Calgary, for two or three weeks' camp at Banff.

By reference to posters, a garden party will be given at the Chinook Church and grounds under the auspices of the Ladies' Aid, on Tuesday evening, July 15th. Ice cream and an excellent program. A very hearty invitation is extended to everyone to join in the evening's enjoyment.

Mr. and Mrs. R. W. Wright are entertaining an honored visitor in the person of Mr. Wright's brother James. Mr. Wright saw much service at the front, and had many narrow escapes. At one time he was struck on the arm by a fragment of shell. Later on blood poisoning set in, and he was in hospital for some time. He is not seeing this part of the country at its best.

Chinook Beats Cereal

In a most one-sided game on Tuesday evening at Chinook, Cereal went down to defeat to the Chinook team by a score of 16 to 9.

Youngstown defeated Oyen in a league game on the home grounds Wednesday evening by a score of 5 to 2. Securing this victory puts the local team at the top of the league.

League Standing	P	W	L	Pct.
Youngstown	7	5	2	714
Oyen	7	4	3	571
Chinook	7	3	4	429
Cereal	7	2	5	286

VOTING ON MUNICIPALITY

Voting was in progress Wednesday in territorial unit number 213, which includes all land in township 25 to the Red Deer river in ranges 7 to 9 inclusive.

The movement was first agitated last March and while no public meetings have been held a committee was appointed who were instructed to take a vote of the people in the area affected to decide whether the majority are in favor of making application for the formation of a municipal district. If the result of the polling shows a general desire for the formation of a district application will be made in due course, while if an adverse vote is recorded the matter will be dropped. Up to the time of going to press no report has been received as to the result of the voting.

COLLHOLME COUNCIL IN REGULAR MEETING

Council Will Borrow \$2,000
Extra to Pay for Seed Grain

The fifth meeting of the council of M.D. of Collholme for the year was held in Collholme school on Saturday, July 5 at 10 o'clock. All members were present.

After the minutes of the previous meeting had been read and approved and the correspondence read the finance committee presented a number of accounts which were passed on.

The following amounts paid since last meeting to school districts were approved: Keystone, \$300; Heatdale, \$350; Peyton, \$300; Collholme, \$400; Stinson, \$150; Cross Plains, \$100; Rearville, \$300; Clover Leaf, \$350; Canada, \$50; Laughlin, \$350.

On motion of Mr. Marr Mr. Little was instructed to have a look at the road allowance on the east side of 26-26-8 to see if it is advisable to move the fence back on section 26 in order to get around a large hill on this road.

An offer of an acre and a half of land on SW 25-26-8 at \$16 per acre, made by George H. Simpson, for a road allowance was accepted on motion of Mr. Little. A preliminary agreement signed by Simpson was placed on file and it was agreed to pay for the land when the title is received by the municipality.

On motion of Mr. Kinch it was decided that the taxes against the east half of 4-4-9 from the time the land was first filed on by Allen Wegner until the date of cancellation of his entry be regarded as a debt owing the municipality by Mr. Wegner, and that steps be taken to secure the municipality against loss to their collection.

The secretary was instructed to order two tremoes for use in Division 5. On motion of Mr. Marr a bylaw authorizing the borrowing of an additional \$2,000 for payment of seed grain advanced during the spring was passed. The council adjourned until Saturday, August 2, at 10 o'clock, in Collholme school.

JUDGMENT FOR SOLDIER'S WIDOW

Judgment was given last week by Hon. Justice Stuart, in the action brought by Mrs. Argo, widow of David Argo, at one time a contractor in Calgary, who enlisted in the 50th battalion, and was killed in France, against the executors of the estate of the late D. N. Macleod, at one time a farmer near Youngstown, who also enlisted in the 50th Battalion, and like Sergt. Argo, was also killed in France.

The claim of Mrs. Argo was for \$500, being the face value of an I.O.U. given to her in June, 1915, by Pte. Macleod, prior to the battalion leaving for France. It was acknowledged by Mrs. Argo that she had received \$200 from Macleod, but she claimed that this amount was paid on account of another transaction. Three handwriting experts were called during the trial—W. Ludowick, of Copeland Business College, for the plaintiff, and F. M. Harvie, city auditor, and F. G. Garbutt, for the defendant.

While not discrediting Mrs. Argo's evidence with regard to the payment of the \$200, the court held that a certain amount of corroboration of such evidence, especially with regard to the estate of a deceased soldier, was necessary. Judgment was, therefore, given for \$400 and costs against the executors of the Macleod estate.

Saturday, July 19, has been officially declared a holiday to celebrate the signing of peace. This day is being universally adopted throughout the British Empire.
